

Protocol for entering and exiting the classroom in Novaschool centres

Start of the day:

- Students will bring all their belongings to the classroom, including their coats and backpacks.
- Before removing items from their backpacks, students should wash their hands for 20 seconds in the assigned bathroom. There will be gel dispensers at the entrance of each class, as well as explanatory posters on hygiene and cleaning measures.
- Once they have washed their hands, they will enter the classroom placing their coats on the back of their chair and their backpacks under the assigned chair or lockers.

During the day:

- Students should wash their hands after leaving class, at the end of the day, after breaktime, after lunch, after physical education, after using the bathroom, or anytime they leave class.
- As far as possible, different groups of students will be assigned a bathroom area. In the case of children having toilet facilities in the classrooms, the teachers will take care of managing the use of the bathroom.

End of the day:

- Students collect their coats and backpacks where previously placed, in the designated areas.
- Students will wash their hands before leaving the school, through the door designated for this purpose.
